

Job Title: Data Scientist

Location: Tokyo

About the job you are considering

Capgemini Global Insights & Data business line is a market leader in the data, platform, and analytics across all regions and across many sectors (including financial services, consumer products, manufacturing & life sciences). Our offerings include end-2-end data integration to cloud platform, complete suite of AI engineering capabilities and a category of sector-based advanced analytics / AI solutions.

The places that you work from day to day will vary according to your role, your needs, and those of the business; it will be a blend of Company offices, client sites, and your home; noting that you will be unable to work at home 100% of the time.

Your Role

We are seeking an experienced and highly skilled Data Scientist to join our dynamic team. The ideal candidate will have a deep understanding of data science techniques, machine learning, and big data technologies

- Design LLM prompts based on business requirements
- Provide efficient ML solution based on business requirements.
- Customize open-source pre-trained models based on business requirements. (Mostly Japanese datasets).

Your Skills and Experience

- LLM based app development experience.
- Azure development experience (Certifications are plus).
- Japanese proficiency (N2 or above).
- Deployment experiences of ML-based application into Production.
- Data Analysis skills - Python / SQL
- Bilingual (English and Japanese). Good verbal and written communication.
- Prompt engineering.
- Familiarity of open-source LLM toolkits (Langchain, Langsmith, LangGraph, CrewAI etc.)
- Efficiently communicate in both English and Japanese.

- Cloud computing experience.
- Instructing-tuning LLMs are favorable.

Your Security Experience

To be successfully appointed to this role you will need to undergo [Baseline Personnel Security Standard](#) checks.

There are no nationality or residency restrictions, although if you have resided outside of the UK within the last 3 years, further checks may be required.

There are other criteria and checks required for BPSS, and throughout the recruitment process, you will be asked questions about your security clearance eligibility such as, but not limited to, country of residence and nationality.

Why you should consider Capgemini

Growing clients' businesses while building a more sustainable, more inclusive future is a tough ask. When you join Capgemini, you'll join a thriving company and become part of a diverse collective of free-thinkers, entrepreneurs and industry experts. We find new ways technology can help us reimagine what's possible. It's why, together, we seek out opportunities that will transform the world's leading businesses, and it's how you'll gain the experiences and connections you need to shape your future. By learning from each other every day, sharing knowledge, and always pushing yourself to do better, you'll build the skills you want. You'll use your skills to help our clients leverage technology to innovate and grow their business. So, it might not always be easy, but making the world a better place rarely is.
